

BRIGHT TV Viewership ANALYSIS

Race Profile of Subscribers

KEY INSIGHT

Insight

- Male subscribers dominate the BrightTV subscriber base, accounting for 85% of all subscribers.
- Female subscribers represent only 11%, indicating a significant gender imbalance in the current customer base.
- 4% of subscribers have no recorded gender, highlighting a potential data quality issue.

Recommendations

- Develop and promote content that appeals to female audiences (lifestyle, reality TV, family programming, local dramas, wellness content).
- Run targeted marketing campaigns focused on female viewers.
- Improve subscriber data collection processes to reduce the 4% "unknown" classification.
- Conduct audience research to understand barriers to female subscriber acquisition and engagement.

Total Subscribers by Growth

A clear view of the current subscriber Growth

KEY INSIGHT

Insight

BrightTV experienced strong subscriber growth between January and March, increasing from approximately 2,203 subscribers in January to 4,821 in March, representing growth of more than 100% over the period.

Recommended Action

- Increase investment in the acquisition channels that drove March growth.
- **Analyze** acquisition campaigns launched before March and replicate successful initiatives.

Total Subscribers by Ethnicity

A clear view of the current subscriber Growth

KEY INSIGHT

Insight

The Black customer segment accounts for approximately 43% of all subscribers, making it the largest and most influential market segment for BrightTV.

Recommended Action

- Develop culturally relevant programming.
- Increase targeted marketing campaigns aimed at the dominant subscriber segment while exploring growth opportunities in underrepresented groups.

Subscribers by Age distribution

A clear view of the current subscriber Growth

KEY INSIGHT

Insight

Youth and Adult age groups represent the largest proportion of subscribers across all racial categories, with youth subscribers showing particularly high engagement.

Recommended Action

- Increase youth-oriented content.
- Invest in music, reality TV, sports, gaming, and digital-first entertainment.

Content Consumption by channel

A clear view of the current subscriber Growth

KEY INSIGHT

Insight

Youth-focused channels consistently generate the highest audience volumes, while niche and older demographic content attracts significantly lower engagement.

Recommended Action

- Prioritize acquisition of youth-oriented content.
- Expand popular content categories while reviewing underperforming channels.

Factors Influencing Consumption

1. Age Demographics

The strongest driver of consumption appears to be age.

Evidence:

- Youth category dominates usage.
- Higher engagement on youth-oriented channels.

2. Content Relevance

Subscribers consume content that reflects their interests and lifestyle.

Evidence:

- Strong performance of entertainment-focused channels.
- Weak performance of niche programming.

3. Geographic Concentration

Consumption correlates with province concentration.

Evidence:

- Gauteng dominates subscriber numbers.
- Regions with higher subscriber counts likely generate higher viewing activity.

4. Representation and Cultural Relevance

Subscriber concentration within specific race groups suggests culturally aligned programming influences consumption behavior.

Recommended Content for Low Consumption Days

Weekday Daytime Programming

Introduce:

- Reality TV marathons
- Local drama reruns
- Lifestyle shows

Midweek Engagement Campaigns

Introduce:

- Viewer competitions
- Interactive voting
- Social media engagement campaigns

Youth-Focused Content Blocks

Introduce:

- Music shows
- Gaming content
- Influencer-driven programs
- Esports highlights

Family Content

Introduce:

- Family movies
- Educational programs
- Weekend preview specials

Initiatives to Grow Bright TV user Base

1. Regional Expansion Strategy

Target:

- Northern Cape
- Free State
- Limpopo
- North West

Expected Outcome:

- Reduced dependency on Gauteng.

2. Referral Programme

Implement:

- "Refer a Friend" rewards.
- Bonus viewing benefits.

Expected Outcome:

- Lower acquisition cost.
- Faster subscriber growth.

Initiatives to Grow Bright TV user Base

3. Youth Acquisition Campaign

Target:

- Students
- Young professionals

Channels:

- TikTok
- Instagram
- YouTube

Expected Outcome:

- Increased penetration within the highest-value audience segment.

Initiatives to Grow Bright TV user Base

4. Content Personalization

Implement:

- Personalized recommendations.
- Genre-based viewing suggestions.

Expected Outcome:

- Increased viewing hours and retention.

5. Strategic Content Partnerships

Partner with:

- Local content creators
- Sports organizations
- Music producers

Expected Outcome:

- Exclusive content differentiation.
- Higher subscriber growth.

Conclusion

Key Takeaway

BrightTV is experiencing strong subscriber growth driven primarily by young audiences in Gauteng and the Western Cape. Future growth should focus on expanding into underpenetrated provinces, strengthening youth-focused content offerings, and leveraging data-driven marketing to improve acquisition and consumption across all customer segments.
